3D LENS SYSTEM™

- Detailed, 3-dimensional embossed finish is extremely realistic.
- A thin holographic laser sheet embedded in the lure's body provides intense reflection and looks just like the inside of a real baitfish.

MAGNET WEIGHT TRANSFER SYSTEM
INTERNATIONAL PATENT.

AILE MAGNET NEO DB (F) **NEW**

■COLOR CHART

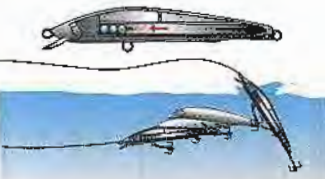

DUEL ORIGINAL MAGNET WEIGHT TRANSFER SYSTEM INTERNATIONAL PATENT.

CASTING POSITION

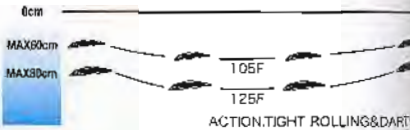

During a cast, the weight balls shift to the back of the lure. This shift stabilizes the lure's flying position and controls air-resistance. As a result, this system delivers exceptionally balanced and smooth casting abilities to a maximum distance.

SWIMMING POSITION

※The weight moves from the back to the front when the lure lands into the water.
※The MWTS is fixed with a Magnet lock which keeps the lure's balance steady.

DUEL ORIGINAL MAGNET WEIGHT TRANSFER SYSTEM INTERNATIONAL PATENT.

CASTING POSITION

SWIMMING POSITION

During a cast, the weight balls shift to the back of the lure. This shift stabilizes the lure's flying position and controls air-resistance. As a result, this system delivers exceptionally balanced and smooth casting abilities to a maximum distance.

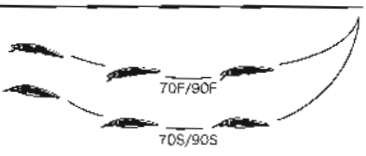

※The weight moves from the back to the front when the lure lands into the water.
※The MWTS is fixed with a Magnet lock which keeps the lure's balance steady.

MONOFILAMENT

STRAIGHTSLIDER X-TEX TAPER LINE/15mX5

- Made of the DUEL's original material "X-TEX".
- This line meets various requirements by anglers in the long casting game for the surf. It has shock resistance, long castability and abrasion resistance.
- The line is an integration of "outstanding casting distance", "strength" and "suppleness".
