

The advantages of the brand !

- Aluminium frame and spool housing
- Instant anti-reverse
- Computer balanced shaft
- Profiled aluminium spool/ Nylon
- Profiled aluminium spool/ Braid
- Cross over line lay
- Multi disk micrometric drag mechanism
- Drag adjustable with either braid or nylon spool
- Long life bail arm spring
- Strong bail arm
- Comfortable reel handle
- Stainless steel protected bearing
- Waterproof and resistant to salt and dust
- Right or left hand wind

LUXOR®

Reliability & elegance

Model N°	Ratio	Weight (g)	Roller bearing	Ball bearings	Spool capacity braid	Spool capacity nylon	Line per handle turn	Spare spool	Reference
300	4.9/1	410	1	6	0.15 mm / 200 m	0.25 mm / 200 m	80 cm / TM	1	05842
500	4.6/1	544	1	6	0.25 mm / 200 m	0.30 mm / 200 m	80 cm / TM	1	05843

While respecting the traditional qualities of strength and the robustness of Luxor reels (Aluminium body, bronze gears, hard wearing oversized parts, stainless bearing) we have designed them in order to offer you reels suitable for modern techniques of lure fishing. Supplied with two aluminium spools: one with a perforated spool for mono, the other with solid spool for braid. The drag (multi-disk for maximum flexibility) is adapted for each of the spools. The braid spools possess a firmer drag which gets the most from braid. The nylon spool comes with a softer drag, which lends itself to the elasticity of nylons. The aesthetics of this reel will certainly not fail to impress you! Small body in ultra thin design, large diameter reel spool, it has all of the credentials of a modern classic reel.

The advantages of the brand !

- Magnesium rotor
- Metallic covering
- Gear assembly in Aircraft aluminum
- High density carbon body
- Instant anti-reverse
- Profiled aluminium spool
- Cross over line lay
- Multi disk micrometric drag mechanism
- Long life bail arm spring
- Strong bail arm
- Comfortable reel handle
- Stainless steel protected bearings
- Right or left hand wind

LUXOR[®] SL SUPER LIGHT

Designed based on the Luxor SL 300, this reel has a ratio of 6.2, which brings back 1m per turn of the handle. It will be easy for you to calculate your fishing distance and regularly checking it by simply counting the number of revolutions when you bring back your float or feeder: 1 turn = 1m!

Model N°	Ratio	Weight (g)	Roller bearing	Ball bearings	Spool capacity	Line per handle turn	Spare spool	Reference
200 SL 	5.6/1	186	1	6	0.22 mm / 165 m	65 cm / TM	1	05845
300 SL 	5.1/1	226	1	6	0.28 mm / 165 m	75 cm / TM	1	05846
3000 Match SL 	6/1	236	1	6	0.15 mm / 200 m	100 cm / TM	2	05847

The exacting design brief for this new Luxor range has seen us use ultra modern materials to obtain both a lightweight, reliable and solid reel. We have carefully selected each material in response to the stresses and pressures put on each element within the reel. The high impact parts of the mechanism are made with Air Craft aluminium (used in the aerospace industry for its lightweight and high resistance). Searching for top performance at every step of the way, we have also used magnesium (for reduced weight its toughness), aluminium, or latest generation graphite composite. The multi-disc drag is perfect for lure fishing. Aesthetically designed like the 2008's model, this fine and compact reel will delight you! A real gem whose value is not just measured by its (very low) weight alone!

LUXOR®

Reliability & elegance

Net LUXOR BC 200

« Low profile » multiplier made in aluminium- compact and lightweight, Precision engineering means this reel covers a wide range of angling situations.. The quality of the stainless steel ball bearing (10) guarantee an ultra smooth rotation of the spool free from any friction. . Magnetic centrifugal brake perfectly controls the release of line during casting. Progressive combat drag remains powerful and responsive whatever setting you use. A reliable, efficient and ultra modern product that will delight casting lovers!

The advantages of the brand !

- Single piece body and aluminium covers
- Profiled Aluminium Spool
- Instant Anti-Reverse
- Mechanical casting drag
- Magnetic spool adjustment system (accessible from the right side of the reel)
- Milt-disk fighting drag
- High quality stainless steel ball bearings

LUXOR BCR 200 **Net**

This anti-corrosion treated multiplier reel is perfectly adapted for sea fishing (or in fresh water with big lures!). Very compact for a perfect handling, it is equipped with 5 high quality stainless steel bearings. The power of the multi disc combat drag is easy to control thanks to a large setting knob. You will rapidly gain access to the centrifugal controls through a simple pressure button situated on the side of the reel (graduated from 0= free to 8= hard). Fine tuning settings which let you control the weight of the lure can be adjusted easily on the handle side of the reel. A reel equipped to tackle specimens in sea or in fresh water !

Model N°	Ratio	Weight (g)	Roller bearing	Ball bearings	Spool capacity	Reference
200 BC Net *	6.2/1	220	1	9	0.25 mm / 190 m	05848
200 BCR Net *	5.0/1	265	1	5	0.25 mm / 190 m	05849

* Available only in right-hand version (handle on the left)

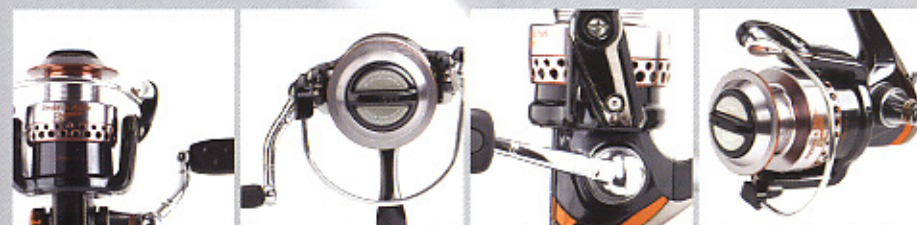

Specialist®

INDISPENSABLE

The advantages of the brand !

- Frame and shaft XF - strong yet light
- Instant anti-reverse
- Computer balanced shaft
- Profiled aluminium spool
- Cross over line lay
- Instant micrometric drag mechanism
- Long life bail arm spring
- Strong bail arm
- Stainless steel bearings anti impurity protection
- Right or left hand wind

Model N°	Ratio	Weight (g)	Roller bearing	Ball bearings	Spool capacity nylon	Line per handle turn	Spare spool	Reference
200 <i>New</i>	4.2/1	264	1	6	0.20 mm / 215 m	60 cm / TM	1	05850
300	5.2/1	284	1	6	0.20 mm / 295 m	82 cm / TM	1	05852
500	5.14/1	393	1	6	0.30 mm / 155 m	86 cm / TM	1	05853

In the same colours as the Specialist rods, this reel has many top quality technical features. It is produced in innovative XF materials, combining strength and lightness. Equipped with a micrometric drag with a wide adjustment range, it allows you to use braids or nylon thanks to its cross lay spooling. The high spec technical design makes it a real delight to use. Available in versions for Predator and match fishing, this reel comes with spare aluminium spools.

Spécialist®

The advantages of the brand !

- Frame and shaft XF - strong yet light
- Instant anti-reverse
- Computer balanced shaft
- Profiled aluminium spool
- Cross over line lay
- Instant micrometric drag mechanism
- Special fighting drag (FSC System) Model 300 FSC Match
- Long life bail arm spring
- Strong bail arm
- Stainless steel bearings anti impurity protection
- Right or left hand wind

Spécialist 300 Match & 300 FSC Match

Model N°	Ratio	Weight (g)	Roller bearing	Ball bearings	Spool capacity nylon	Line per handle turn	Spare spool	Reference
300 Match	6.0/1	305	1	6	0.16 mm / 150 m	94 cm / TM	2	05854
300 FSC Match <i>Watt</i>	6.0/1	285	1	6	0.16 mm / 150 m	94 cm / TM	2	05855

The Spécialist range is equipped with a Match reel with special combat (FSC) drag. Very handy because in a quarter of revolution, applies or rapidly retracts the drag - this system is perfectly adapted for small diameters nylon fishing (when a rapid reaction is required to avoid breaking). Cross turn line lay, aluminium match spool.

The advantages of the brand !

- Profiled graphite body
- Aluminium spool
- Instant anti-reverse
- Mechanical casting drag
- Centrifugal spool drag
- Multidisc fighting drag
- High quality stainless steel ball bearings

Spécialist BC 200 *Watt*

Model N°	Ratio	Weight (g)	Roller bearing	Ball bearings	Spool capacity	Reference
200 BC *	6.2/1	205	1	8	0.25 mm / 190 m	05856

* Available only in right-hand version (handle on the left)

Graphite « Low profile » multiplier reel whose ultra compact and avangardiste design will turn a few admiring heads! Designed with a centrifugal system controlled to control the spool when casting (rapid access through pressure button on the side of the reel) it also has multidisc brakes (progressive and powerful) and a fine adjustment knob for the drag.. Designed in the range of Spécialist fishing rods colours, it will be the perfect partner for Dynamic Cast fishing rods, Casting or Power Feeling.

500 New	5.4/1	309	1	6	0.28 mm / 155 m	79 cm / TM	1	05864

Designed in the same colours as the Invitation rod range this is a new series of reels designed for lure fishing. All are equipped with a micrometric front drag. There is a reel that can be matched to the right rod and cover every lure fishing situation you might encounter. Micrometric drag, profiled aluminium spool, Infinity anti reverse control, strong bail arm pick-up - so many qualities that come from innovative design and commitment to quality.

Redoutable®

SALT WATER SERIES

The advantages of the brand !

- Anti-wobble action
- Instant anti-reverse
- Aluminium spool
- Micrometric drag mechanism
- Long life bail arm spring
- Right or left hand wind
- Stainless steel bearings anti impurity protection

You will find in this collection reels suited to fresh water, seawater, trout, match fishing, predators and carp. There are so many fishing techniques and different waters suited to these reels. No matter what the water or species of fish they are a joy to use. Each of these Redoutable reels, whether it has front drag (FB), rear drag (RB) or free spool (BD) models comes with an aluminium spool and handle. Classic and reliable there is a redoutable reel adapted to your favorite fishing technique!

Montana

The advantages of the brand !

Frame and shaft XF- strong yet light
Large Arbor spool
Micrometric central drag.
Perforated drum
Ratchet On/Off
Right or left hand wind

This new reel is available in sizes # 4/5 and 7/8 and is an innovative Pezon and Michel concept. The Montana combines Pezon and Michel classic quality with modern design, lightness, style and strength. The unique material used in this reel is not only ultra strong and shock resistant but incredibly light. These reels weigh in at just 136g for # 4/5 and 156g for # 7/8 sizes, making them among the lightest reels on the market. The airing of the rear face of the spool and the drum ensures a fast drying of the line and the backing. The ratchet system on this reel can be set totally silent. The progressive drag helps to wind the reel smoothly.

Supplied with two spools, this reel offers remarkable value for money, likely to satisfy even the most demanding anglers. Finally, its wine red colour matches the Montana, Colorado and Special rods.

Model N°	Body diameter (mm)	Body width (mm)	Spool diameter (mm)	Spool width (mm)	Capacity	Spare spool	Weight (g)	Reference
MONTANA #4/5	90	41.7	81	29.2	250 m. Backing 15 Lbs+ # 4	1	138	05912
MONTANA #7/8	105	41.8	96	29.6	250 m. Backing 20 Lbs+ # 7	1	145	05913

Colorado

The advantages of the brand !

Frame and shaft XF- strong yet light
Large Arbor spool
Micrometric central drag.
Perforated drum
Ratchet On/Off
Right or left hand wind

Identical in its conception to the Montana model, the Colorado is built in a material with similar characteristics. In #4/5size only, its volume nevertheless classifies it as a lightweight reel. Black in colour, it is the perfect match for the Colorado rod.

Model N°	Body diameter (mm)	Body width (mm)	Spool diameter (mm)	Spool width (mm)	Capacity	Weight (g)	Reference

Concept Street Fishing® *New*

Whether your fishing the banks of a canal, a harbour by the sea, a pond, in the town or in the country, fishing « on the run » particularly with lures has become a real craze lately. Riding on the back of this « Street Fishing » is the name given for this new breed of anglers. They are looking to fish venues near to home and to team up with "fishing partners" to share their passion. "Street fishing" means short sessions and anglers want gear that can be quickly set up with a minimum of fuss so they can get fishing. Ever sensitive to new trends Pezon and Michel have come up with five brand new rods to meet the needs of the modern "street angler".

The Concept

- Through action Fishing rods which are a pleasure to fish with and maximise the fun of hooking fish of all sizes - be they perch, chub, pike or zander.
- Blank adapted to the use of rubber lures - responsive so anglers can "work" these baits properly.
- High performance fishing rods for casting when you want to cast a long way.
- High precision blank for accurate casting.
- Rods that pack away neatly without hindering performance.

Concept Casting

- 1 - HIGH DENSITY EVA HANDLE
- 2 - FUJI ACS REAL SEAT
- 3 - FUJI THREE LEG RINGS
- 4 - FUJI MONOLEG RINGS (SHORT FOOT)

Model	Length (cm)	Power (g)	Size (cm)	Weights (g)	Strands	Reference	Price
C-ML	190	5-15	99	120	2	55860	D

Casting fishing rods destined for light fishing (small minnow, spinners/ flexible lures) ideal for perch, chub or bass.

Model	Length (cm)	Power (g)	Size (cm)	Weights (g)	Strands	Reference	Price
C-M	210	5-25	110	128	2	55870	D

Multipurpose model, precise as well as good at casting. Progressive action.

Concept Spinning

- 1 - HIGH DENSITY EVA HANDLE
- 2 - FUJI VSS REAL SEAT
- 3 - FUJI BI-LEG RINGS
- 4 - FUJI MONOLEG RINGS (SHORT FOOT)

Model	Lenght (cm)	Power (g)	Size (cm)	Weights (g)	Strands	Reference	Price
S-ML	195	3-12	102	99	2	57930	D

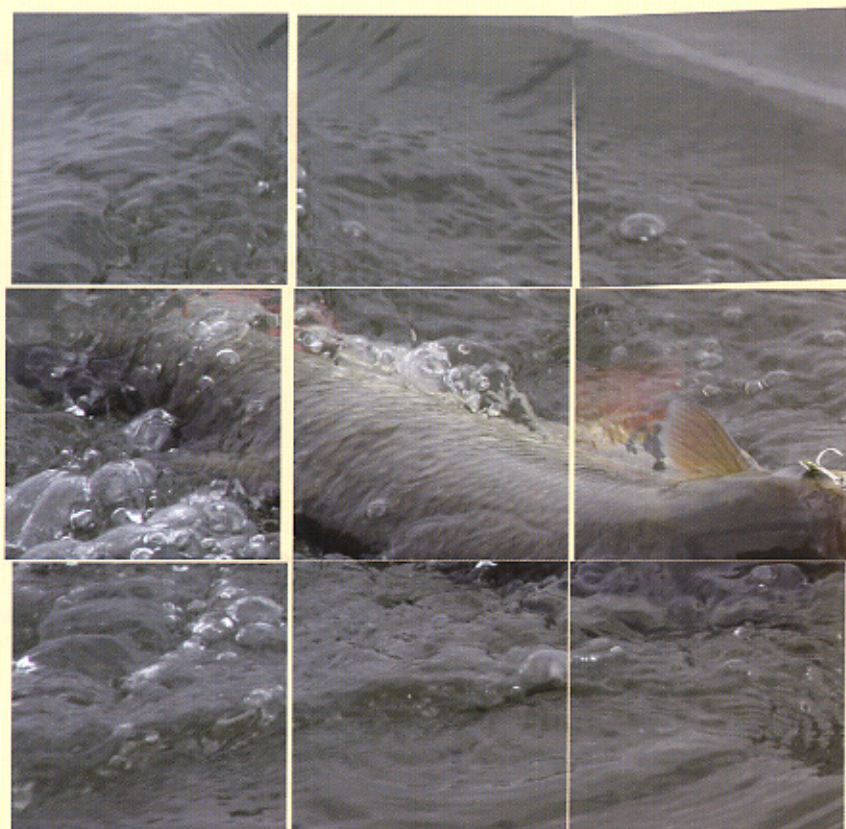

Light fishing rod, fast and tactile. Perfect with a Tiny fry 38, a Squirrel 61 or a Cherry.

Model	Lenght (cm)	Power (g)	Size (cm)	Weights (g)	Strands	Reference	Price
S-M	210	5-20	110	119	2	57940	D

Fishing rods that can be taken everywhere and cope with a variety of conditions.. Progressive, at ease with small plugs as with jerks for pike.

Model	Lenght (cm)	Power (g)	Size (cm)	Weights (g)	Strands	Reference	Price
S-MH	240	7-28	126	133	2	57950	D

Fishing rods for casting distances.. Not only its capability of casting a lure far enough but also responsive enough to fish for zander with soft lure baits.

Specialist[®]

Evolution by Design

Jerk

HIGH DENSITY EVA HANDLE - 1
FUJI THREE LEG RINGS - 2

Jerkbaits are growing in popularity and these rods are designed specifically for their use. The Specialist range adds these two models perfectly designed for fishing with medium and heavy jerkbaits. If used with a Freddy or a Super Freddy (Illex) the Specialist jerk rod will give you the edge when hunting record fish!

Model	Length (cm)	Power (g)	Size (cm)	Weights (g)	Strands	Reference	Price
JERK M-H Nett	200	60-100	152	226	1+1	55680	0

FUJI VSS REAL SEAT - 3

FUJI THREE LEG RINGS - 4
FUJI MONOLEG RINGS - 5
COUNTERWEIGHTS - 6

Vertical

This blank has been developed with a lot of care particularly in the degree of flex to optimise the number of bites you hit on such an ultra light rod. The tip is very sensitive to optimise control when working a lure. Their strength works equally well when power pumping as with slower retrieves for winter fishing. The ability of this rod to pick up on the slightest bite is helped by the use of FUJI short leg rings on the tip. Adjustable counterweights allow you to perfectly balance these rods to whatever situation you happen to be fishing in. Fuji reel seat with Fuji ergonomic handle. Fuji rings.

Model	Lenght (cm)	Power (g)	Size (cm)	Weights (g)	Strands	Reference	Price
VERTICAL New	185	7-21	162	115	1+1	55650	D

Trout Spin & Trout Lure

Alain Foulon once again helped in the design of this new range of trout rods.. The "Trout Lure" was completely thought of for fishing with small plastic lure like the Tiny Fry 38 or Squad Minnow 65.. responsive and tippy this rod is perfect for short, fast pulls on the lures and working them across the flow.. The Trout Spin has a softer action perfect for working spinners from OO to 1 size. This rod will let you cast and work a small spinner with total precision.. Each of the models has an ergonomic cork handle. These rods are absolutely perfect!

SG Power Feeling

Fishing with dead baits is without doubt the most popular way to fish for pike and zander in France. Pezon and Michel have not forgotten this and offer you the perfect dead baiting rod: forgiving blank, soft in the tip and powerful in the butt, you will be surprised by its lightness. Perfectly balanced, you can use it for hours without any angler fatigue. A product completely dedicated to an ultra efficient technique!

MI Blank and SIC Rings.

SG Feeling

You are sure to be won over by this new very advanced rod; ideal for fishing that requires an ultra delicate detection of bites. Its very fine blank, preserved thanks to a spigot fitting, optimizes precise handling. Ultra efficient for casting, quality rings and their precise spacing also increases the quality feel of the rod. HM Carbon and SIC bi-leg rings.

Rapide

Mounted by Alain Foulon

Unlike the numerous spoons and spinners which flood the market today the Rapide has benefited from careful development and numerous tests, in order to obtain the ideal reflectivity. Alain Foulon brought all his experience of light casting trout fishing to the design of these spinners. This has enabled Pezon and Michel, renowned for the quality of their lure making, to create this model, which thanks to the blade attachment gains an impressive regularity of rotation as well as high quality of vibration. The triple hook fitted with a fly focuses the predatory instincts of the fish. The Rapide will cast far and start working as soon as it hits the water.
